SHIN, CS: Artificial retardation of fatigue crack growth by the infiltration of cracks by foreign materials, 2A823
- Modified model for the estimation of fatigue life derived from random vibration theory, 9A114
SHIN, DONGHOON: Process simulation model for a 2 ton H' incinerator: A combined bed combustion and furnace heat transfer model, 3A1507
SHIN, E-S: Predictive measure of thermomechanical coupling in elasto-viscoplastic composites, 11A501
SHIN, EC: Foundation on geogrid-reinforced sand: Effect of transient loading, 3A673
SHIN, H-W: Effects of nonaxisymmetric tip clearance on axial compressor performance and stability, 2A1237
SHIN, HD: Visual investigation of a vortex ring interacting with a nonpremixed flame, 10A1419
SHIN, HUNG-TAE: Oscillation-controlled heat-transport tube: Heat transfer coefficient in tubes in heating and cooling regions, 4A1312
SHIN, HYUN DONG: Linear stability of 2D steady flow in wavy-walled channels, 4A1190
- Catalytic burner using propane and toluene alternately for the drying of textile coatings, 10A1434
SHIN, ISHII: Associative memory based on parametrically coupled chaotic elements, 3A102
SHIN, JAE HO: Reconstruction of the 1994 Pittsburgh airplane accident using a computer simulation, 4A1258
SHIN, JANG-CHUL: Correlation of microstructure and fatigue properties of two high-strength spring steels, 11A738
SHIN, JONG KEUN: Developing turbulent heat transfer in a 360° bend of square cross section, 8A1314
SHIN, K: Force-state mapping method of a chaotic dynamical system, 5A88
- Instantaneous Lyapunov exponent and its application to chaotic dynamical systems, 5A91
- Iterative SVD method for noise reduction of low-dimensional chaotic time series, 7T335
SHIN, S: Numerical heat transfer in a rectangular duct for a non-Newtonian fluid with shear rate-dependent thermal conductivity and temperature dependent viscosity, 1T1337
- Comparison of the rheological properties of electrorheological fluids at between shear and flow mode: A new scanning electrorheometer, 11T1284
SHIN, SAHNG-HOON: Element stress recovery technique with equilibrium constraints for superconvergent boundary stress extraction, 11A56
- Superconvergent stress recovery technique for accurate boundary stress extraction, 12A22
SHIN, SEHYUN: Heat transfer behavior of a temperature-dependent non-Newtonian fluid with Reiner-Rivlin model in a 2:1 rectangular duct, 10A1318
SHIN, TZAY-CHYN: Quick and reliable determination of magnitude for seismic early warning, 4A1484
SHIN, WAE-GYEONG: Study on interfacial aspects of epoxy-based composites reinforced with dual basalt and SiC fibers by means of the fragmentation and acoustic emission techniques, 8A797
SHIN, YC: Transient thermal response of a rotating cylindrical silicon nitride workpiece subjected to a translating laser heat source - Part II: Parametric effects and assessment of a simplified model, 4A1353
- Transient thermal response of a rotating cylindrical silicon nitride workpiece subjected to a translating laser heat source - Part I: Comparison of surface temperature measurements with theoretical results, 4A1352
- Intelligent optimization of grinding processes using fuzzy logic, 6A817
- Thermo-mechanical modeling of orthogonal machining process by FE analysis, 8A490
- In-situ identification method for joint parameters in mechanical structures, 10A1056
SHIN, YJ: Preparation and modification of waterborne polyurethanes, 11T1056
SHIN, YOU HWAN: Experimental study on the development of a reverse flow zone in a vaneless diffuser, 8T1135
SHIN, YOUNG S: Surface ship shock modeling and simulation: 2D analysis, 5A211
SHIN, YS: Modeling mitigation effects of water-shield on shock waves, 9A274
SHIN, YW: Flow-Induced Vibration and Transient Thermal-Hydraulics - 1998, 1N29
SHINAGAWA, K: Constitutive model for sintering of ceramic powder compacts with internal structure due to granules, 10A658
SHINBROT, T: Model of mixing and transport in wavy Taylor-Couette flow, 3A1057
SHINCHI, A: Electric contact surface of Pd-plated metal in organic gas-air atmospheres, 11A978
SHINDO, M: Vertebral curvature of sportsmen, 4A1550
SHINDO, T: Magneto-elastic analysis of a soft ferromagnetic plate with a through crack under bending, 9A733
SHINDO, Y: Electroelastic analysis of piezoelectric ceramics with surface electrodes, 1A728
- Magneto-elastic analysis of a soft ferromagnetic plate with a through crack under bending, 9A733
- Anti-plane shear crack in a piezoelectric layer bonded to dissimilar half spaces, 10A748
- Scattering of Love waves by a surface-breaking crack in piezoelectric layered media, 10A266
- Theoretical and experimental evaluation of double-notch shear strength of G-10CR glass-cloth and epoxy laminates at cryogenic temperatures, 12A630
SHINDOH, T: Effect of interface shape on the strength for carbon steel-PMMA adhered joint (Japanese), 11A1015
SHINE, S: Strouhal numbers of flow-excited acoustic resonance of closed side branches, 8A268
SHINGAREVA, IK: Faraday resonance in water waves at nearly critical depths, 4T237
SHINKAI, M: Development of statistical tolerancing system for optical products: Virtual PT system and mass product simulation, 2A583
- Development of statistical tolerancing for optical products - 2nd report: Realization of complex tolerance sensitivity analysis system (Japanese), 8A496
SHINKARENKO, GA: Stress-strained state of elastic flexible multilayer shells (Russian), 6A678
SHINODA, Y: Study on the structural mechanism of Reinforced concrete (RC) composite beam considering pre-loading effect (Japanese), 7A552
SHINOZAKI, H: Application of the new pre-lining support method to a tunnelling work (Japanese), 5T605
SHINOZUKA, M: Specialty conference on Probabilistic Mechanics and Structural Reliability: Worcester Polytechnic Institute, Worcester, MA August 7-9, 1996, 7A829
- Modeling, synthetics and engineering applications of strong earthquake wave motion, 7A1562
SHINSHI, T: Precision magnetic bearing - 3rd Report: Displacement estimation by using flux density and precision positioning (Japanese), 7A912
SHINYA, N: Assemblage of particles for intelligent materials, 2A567
SHIODE, K: Characterization of mullite zirconia composite ceramics at high temperature (Chinese), 2A677
SHIOGAMA, Y: Behavior of space membrane at retrieval phase (Japanese), 3A279
SHIOJIRI, H: Simulation analysis of dynamic water pressures and displacements measured on forced vibration test of arch dam (Japanese), 6A1053
SHIOMI, K: Property of bilinear transformation matrix and Schur stability for a linear combination of polynomials, 9A429
SHIOMI, M: Finite element analysis of liquid ejection in continuously cast slab by sequential forging, 1A764
- Finite element analysis of melting and solidifying processes in laser rapid prototyping of metallic powders, 4A764
- Direct manufacturing of metallic model by laser rapid prototyping, 6T478
- Prediction of fracture generated by elastic recoveries of tools in multi-level powder compaction using FE simulation, 9A797
SHIONO, K: Complex flow mechanisms in compound meandering channels with overbank flow, 6A1153
SHIONO, Y: Identification of the machine settings of real hypoid gear tooth surfaces, 1A1035
SHIOTA, H: Effect of particle size on fatigue behavior in SiC particulate - Reinforced aluminium alloy composites, 12A765
SHIOTA, Y: Study on robot arm with characteristics of human muscle (Japanese), 7A411
SHIOTANI, T: Development of a new inspection method for concrete piles damaged due to earthquakes by acoustic emission waves from damaged portions (Japanese), 6A741
SHIOTSUKI, T: Evaluation of monitoring blast vibration on residents (Japanese), 5T296
SHIOTSUKI, Y: Urban inundation prediction by use of tank model (Japanese), 4T1540
SHIOYA, T: Fundamental solution for a penny-shaped crack in a piezoelectric medium, 10A751
- Green's function of an external circular crack in a transversely isotropic piezoelectric medium, 10A753
SHIOYAMA, T: Numerical 3D shape inference from image brightness for non-Lambertian surface, 9A411
SHIOZAKI, M: Fundamental study on ultrasonic nondestructive evaluation of butt welded joints of thick steel plate containing planar defects (Japanese), 3A995
SHIPKO, AA: First and second generation electron beam surface engineering, 11T724
SHIPKOV, AA: Model of the environmentally affected growth of fatigue cracks, 3A737
SHIPKOV, NN: Deuterium trapping by carbon materials for tokamak plasma-facing components, 6A1287
SHIPKOWITZ, T: Numerical study on the effect of steady axial flow development in the human aorta on local shear stresses in abdominal aortic branches, 6A1599
SHIPLYUK, AN: Viscous shock layer on a plate in hypersonic flow, 11A1157
SHIPP, RM: Seismic waveform inversion in the frequency domain - Part 2: Fault delineation in sediments using crosshole data, 11A1548
SHIPPEN, J: Robust backstepping and neural network control of a low-quality nonholonomic mobile robot, 9A474
SHIPPEN, JM: Measurement of autogyro control forces, 1A1246
SHIPSHA, A: Interfacial fatigue crack growth in foam core sandwich structures, 10A828
SHIRAHATA, H: Fundamental study on ultrasonic nondestructive evaluation of butt welded joints of thick steel plate containing planar defects (Japanese), 3A995
SHIRAI, K: Road traffic noise prediction model in Thailand, 9A320
SHIRAISHI, J: Development of a tougher grade of polycrystalline diamond cutting tool, 12A726
SHIRAISHI, M: Feature extraction for leg health condition based on normal gait pattern, 2T1537
- LQI control of surface roughness in turning (Japanese), 4A738
- Effects of aspect ratios on internal flow patterns of an inclined closed two-phase thermosyphon at normal operating condition, 5A1248
- Study on forming control of a nerve circuit network - 2nd report: Automatic forming and its performance of a nerve circuit network using an elite strategy (Japanese), 8A440
- Design and analysis of a manually powered wheelchair capable of traversing steps by pneumatic actuation, 9A1597
SHIRAISHI, T: Development of 3D profile measuring apparatus for microparts: Measuring principle and measuring results (Japanese), 4A485
SHIRAISHI, Y: Feedback control of an omnidirectional autonomous platform for mobile service robots, 3A413
SHIRAKASHI, T: Monitoring of tool wear states in turning based on wavelet analysis, 9A1038
SHIRAKAWA, H: Numerical analysis of rapid solidification in a single roller process, 6A1374
SHIRASE, K: Behavior of cutting heat in high speed cutting, 2A782
- Waterjet in-process dressing - 1st Report: Dressing property and jet pressure (Japanese), 4A479
- Improvement on productivity of machining centers: Effects of tool paths on productivity, 6A513
SHIRATO, K: Non-invasive estimation of human left ventricular end-diastolic pressure, 3T1540
SHIRATO, M: Constitutive model with micro-slip mechanism and its application to large deformation problems (Japanese), 3A656
SHIRAZI, SA: Evaluation of several turbulence models for turbulent flow in concentric and eccentric annuli, 5A1044
- Fluid temperature and film coefficient prediction and measurement in mechanical face seals: Experimental results, 5A856
- Fluid temperature and film coefficient prediction and measurement in mechanical face seals: Numerical results, 5A833
- Flow field prediction and bubble trajectory model in gas-liquid cylindrical cyclone separators, 7A1021
SHIRAZI-ADL, A: Fibril-network-reinforced biphasic model of cartilage in unconfined compression, 9A1561
SHIRES, DR: Recent developments encompassing non-isothermal and isothermal liquid composite molding process modeling-analysis: Physically accurate, computationally effective, and affordable simulations and validations, 5A635
- Three-dimensional resin transfer molding: Isothermal process modeling and implicit tracking of moving fronts for thick, geometrically complex composites manufacturing applications - Part 2, 12A1090
SHIRINZADEH, B: Flow visualization using fluorescence from locally seeded I_2 excited by an ArF excimer laser, 9A1307
SHIRMAN, E: New model to analyze nonlinear leak-off test behavior, 9A1513
SHIROKOVA, E: Solution of the plane elasticity basic problems for the unbounded domains with boundary cusps, 7T457
SHIROKOVA, EA: Exact solution of the plane elasticity problems for the S-cut with cusps, 7T456

SHIROLKAR, JS: Probability density function propagation model for turbulent particle dispersion, 1A1199
SHIROMA, N: Time-scaling control of an underactuated manipulator, 2A531
SHIROTORI, M: Numerical investigation of transonic axial compressor rotor flow using a low-Reynolds-Number k-ε turbulence model, 5A1134
SHIRRON, J: Inverse obstacle transmission problem in acoustics, 2A395
SHIRUR, A: Machining algebra for mapping volumes to machining operations for developing extensible generative CAPP, 1T506
SHIRVANIAN, A: Numerical solution of the effect of vibration on melting of unfixed rectangular phase-change material under variable-gravity environment, 3A1253
SHISHKIN, GI: Fractional step method on a special mesh for the resolution of multidimensional evolutionary convection-diffusion problems, 1A1397
SHISHOO, R: Interlaminar fracture of commingled GF-PET composite laminates, 4A824
- Permeability characterization of different architectural fabrics, 10A1194
